Dear Circle F Dude Ranch Families,

Welcome to CampMeds! Circle F Dude Ranch has partnered with CampMeds to help manage camper medications for the upcoming summer. We work with our pharmacy partner, Aurora Long Term Care, to package and deliver medications directly to camp health centers. Our goal is to simplify medication administration, help reduce the potential for medication errors, and give health center staff more time to focus on camper care.

CampMeds can provide regularly taken prescription medications, over-the-counter (OTC) medications, and supplements. Below is an overview of how our process works and what you need to know to prepare for camp.

Sign Up – Registration opens **January 4, 2027**, at www.campmeds.com. We encourage you to register as early as possible to take advantage of our lower registration rates. You can update your camper's medication list and submit additional prescriptions later, as needed, subject to our deadline

Submit Prescriptions – Send in any needed prescription to our pharmacy partner, Aurora LTC. We ask that you submit these at least 30 days before the start of your camp session to be considered on time; the latest we can receive them is 15 days before camp starts for us to complete your order.

Check Email – Our team will send reminders, updates, and questions about your order directly to your email on file. Make sure to check and respond as needed so everything is set for your camper. Similarly, if you need to adjust or cancel your order, contact our team at info@campmeds.com. Please note, no adjustments can be made less than 15 days before your camper's session begins.

Medication Payment – Our pharmacy partner, Aurora LTC, will bill your credit card or, if provided, FHA/HSA card for the cost of medication. Insurance is billed for any qualifying medications, and you are charged for any copays and non-covered medications. This happens after the start of camp.

Medications: CampMeds can supply most prescription and over-the-counter medications and supplements through our service. Please note, we do have some types of medication we cannot supply, including injectable medications (like human growth hormones or insulin), birth control, Accutane, Seysara, Valtoco, temperature-controlled medications, specialty compounded medications like Atropine eye drops or SILT. You can find a complete list on our online FAQ page.

Registration Fees: CampMeds offers tiered registration pricing; complete your registration early for the best rate!

January through February - $65 per camper
March through May 15th - $85 per camper
May 16th onward - $105 per camper

This registration fee does not cover the cost of medication. You will be billed after the start of camp for your camper's ordered medicine, including any copays or cash prices for anything not covered by insurance. A one-time $100 late fee applies if you register or submit your prescriptions fewer than 30 days before your camper's session begins.

If you need to contact us for any reason, email info@campmeds.com or call 954-577-0025. Our team is happy to help. Thank you for trusting CampMeds with your camper's medication needs. We look forward to working with you to ensure a safe and smooth summer!

Thank you,
The CampMeds Team
