

CAMP
GREYSTONE

THE DIRECTORS of Camp Greystone, Dr. and Mrs. Joseph R. Sevier, have been conducting girls camps for more than twelve years. They love girls, camp life and nature; and they have associated with them a most capable organization of officers and councillors.

The Head Councillor, Miss Janie McGaughey, is a most efficient leader of young women with successful experience in the Aloha Camps of Vermont and at Camp Greystone in North Carolina.

The Camp Mother looks after the welfare of the girls, sees that they are comfortable and happy, and tries to take the place of the absent mother during the camp season.

The Matron is an experienced dietitian who is well fitted for her task of feeding healthy growing girls. Her instructions are to serve the very best that the market affords. She has five good Southern cooks to prepare the appetizing menus that she daily plans.

The Trained Nurse is constantly at the camp, watching and helping the girls, taking their measurements and instructing them in the art of healthful living. Each year the girls add weight and gain much strength during the camping season. Regular hours and plenty of exercise, with good wholesome meals, will work wonders with girls of the growing age in this environment.
