Scheduling Instructions

The "How Tos"

- Choose 7 activities that you would like to take! We suggest grabbing a pencil and **circling one class per period**...make sure to choose a variety - there are so many fun ones!
- If any of your choices are 2 period classes - **don't forget to include the second period on your schedule!**
- Choose the order of your classes based on **where classes are located**. Your counselor can help you with this...THEN look at how active those classes are. If you can, try and group wet and dry activities.
