Pre-Camp Health Screening

Dear Keystone families,

In an effort to minimize illness at camp we ask that you check on the health of your camper daily beginning 14 days prior to camp. The best camp sessions start with healthy campers and this begins at home with your partnership. Please bring this completed form to camp on opening day.

Please indicate if your camper has any of the following symptoms by listing the number beside the symptom in the box below along with a temperature daily. If no symptoms are present, only a documented temperature is required. If your daughter develops a temperature or any symptoms in the 14 days prior to camp, please have your camper evaluated by a licensed provider and contact camp for further guidance.
