

# ENROLLING AGES 5 AND 6

We are very interested in providing a summer experience for your 5 and 6 year old children. However Colorado Childcare licensing requirements limit an outdoor-based day camp like ours to ages 7 and above. In some circumstances, if we can provide compelling proof of a need in our community for a program such as ours for that age group, they will allow them to enroll. We would also have to go through a process of obtaining waivers from the state for each underage camper.

How this will work: You'll apply for enrollment to evaluate need and we will keep your 5 and 6 year old in "applied" status until we have a determination from the state. If need is demonstrated and we are able to provide the state with anecdotal evidence by interested families, we may be able to run groups for this age.

We don't have a sense of whether this effort will be successful or not. Our licensing specialist has told us that it is more likely for 6 year olds than 5 year olds but both are tenuous requests. We would like to give it a shot if you are interested. If so, please apply for camp and then write a quick note of support to [play@colvigsilvercamps.com](mailto:play@colvigsilvercamps.com).

Thank You for you support!
